PURCHASING BOOST INSTRUCTIONS

NOTE: After completing installation, place these instructions with the product for the owner's future use.

Overview

IMPORTANT: Improper or incomplete installation of the product update software could result in damage to the product.

This document describes how to verify eligibility and purchase Boost for applicable Mercury Marine outboards using the Mercury Marine app.

Operation details—Refer to **Using Boost Guide**, available on the Mercury Marine website.

Product description and overview— Refer to **Prior to Purchasing Guide**, available on the Mercury Marine website.

Purchasing Boost

Boost purchase and installation are available through the Mercury Marine app or a Mercury Marine authorized dealer or distributor for boats equipped with SmartCraft Connect in the United States and Canada.

Boost supports a limited number of configurations. Eligibility and availability may change with Mercury Marine app updates.

Current limitations:

- Multiple-engine boats are not eligible for Boost installation or purchase in the Mercury Marine app.
- Engines requiring a propulsion control module (PCM) update are now eligible to be updated through the Mercury Marine app using an internet connection through the SmartCraft Connect.

In these cases, Boost can be installed through a Mercury Marine authorized dealer or distributor.

Additional labor charges may apply for dealer-performed Boost installations or required product updates.

The Mercury Marine app allows Boost to be turned on and off for performance comparison.

Some 350 hp V10 outboards do not require a Boost purchase but require a PCM update to allow the Mercury Marine app to turn Boost on or off. The update must be completed at an Mercury Marine authorized dealer or distributor.

Purchasing Boost Terms

- Boost cannot be transferred to another engine or boat.
- Boost cannot be removed from the engine after installation.
- Boost purchases are non-refundable after completion.

Using the Mercury Marine App in the US or Canada to Verify Boost Eligibility

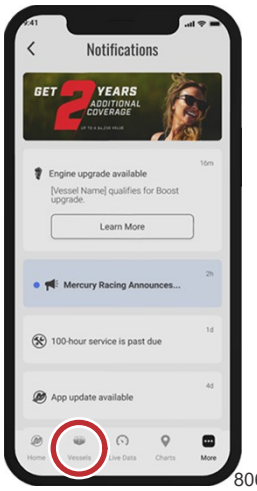

1. Open the Mercury Marine app.

Situation	Response
SmartCraft Connect update is available, indicated by the cloud in the upper right corner.	Select the cloud and complete the update.  81531

2. Turn the engine key to the **ON** position.
3. Connect the Mercury Marine app to the boat.

Purchasing Through the Mercury Marine App

1. Follow the on-screen instructions to complete the Boost purchase.

80648

2. Refer to **Boost Installation Instructions**, available on the Mercury Marine website.

Purchasing or Installing at a Dealer

A Mercury Marine authorized dealer can install required updates and install Boost.

Navigate to https://www.mercurymarine.com/us/en/find-a-dealer for assistance locating a Mercury Marine authorized dealer if required.

1. Contact a local Mercury Marine authorized dealer or distributor.
2. Schedule an appointment for required updates and Boost installation.
3. If Boost was purchased through the Mercury Marine app but not installed, inform the dealer when scheduling the appointment.
4. Provide the email address associated with the Mercury Marine app registration to the dealer for Boost license access if purchased through the Mercury Marine app.
